COMPLEMENTARY COURSES

All Grade 10 Students please request **5** Complementary Courses **ranked 1 (most interested) to 5**. Student services will attempt to match students with their top choices but it may not always be possible. **Of note, not all of the courses listed below will be offered if student interest is not at the necessary level.**

	Cosmetology	Learner's explore the various skills involved in the cosmetology trade, such as haircutting, texturizing, coloring and styling
	Culinary Arts	Learners examine the role of food, looking beyond consumption to production, visual appreciation, nutrition, meal planning, economics and preparation.
	Leadership	Learners explore different aspects of leadership and implement them in their own lives and within the local community.
	Legal Studies	Learners explore all aspects of the law from private to business.
	Sports Performance	Learners develop skills useful for coaching, fitness leadership, sport performance, athletic therapy and leading recreational activities.
	Sports Medicine	Learners develop skills useful for treating and preventing athletic injuries.
	Construction	Learners develop skills in the use of tools and materials used in construction processes.
	Mechanics and Metals	Learners develop skills in the use of tools and materials used in fabrication processes to turn metals into useful products and learn basic mechanical systems and servicing on vehicles.
	Pre-Engineering/Robotics	Learner's focus on robotics and automation or mechanical and structural systems. This is a project-based class.
	Wildlife	Learners examine the human relationship to the natural environment and consider the impact of various human pursuits on species and ecosystems.
	Communication Technology	Learners explore Photography, Film, Animation, and Graphic Design.
	Fashion Studies	Learners design, manufacture and market clothing/textiles and investigate the history, sociology and economics of clothing and textiles.
	Enterprise and Innovation	Learners explore aspects of starting and running their own business.
	French 10 L&C 10 3Y	Learners focus on the skills necessary to communicate in a new language (speaking, writing, listening, reading) by learning through a variety of sources
	Japanese L&C 10-3Y	Learners focus on the skills necessary to communicate in a new language (speaking, writing, listening, reading) by learning through a variety of sources. *Offered at George McDougall High School
	Art	Learners will create art by using a variety of media (painting, sculpture, pottery, mixed media) and develop their artistic, technical and critical skills.
	Drama	Through eight dramatic disciplines, learners will develop both performance and technical skills, becoming more confident in themselves and others.
	Dance	Learners explore dance and creative movement as a means of communication and self-expression by studying a variety of dance styles.
	Jazz Music	A performance ensemble exploring the diverse musical styles in the Jazz tradition, including swing, Latin, funk, & rock.
	General Music	A beginner friendly course where learners can explore contemporary styles in guitar, bass, drums, keyboards, and vocals. No experience necessary. (Includes Band)

Academies

The course groupings below represent speciality programs learning occurs in different ways and over a longer period of time. Learners selecting the Academies below are prepared to have an alternate schedule to their day.

	Mechanics Training Center at Cam Clark Ford	Learners inspect, diagnose, repair and service mechanical, electrical and electronic systems, and components of cars and light and commercial transport trucks at the Cam Clark Ford site. Limited Spaces: Student services will contact you if selected.
