Admin report: Derek Keenan

Current pop 1705 - students are settling in nicely.

Est population next year 1350-1400

Even with the boundary changes next year we will be at 100% capacity as the school was built for 1000, plus the 8 portables which brought us up to about 1350 capacity.

Discussion on the out of area applications to the school for next year and that process. Student/parent first talks to their designated school then that school will send the application to the out of area school.

Parents can check the balancing student spaces website:

<https://rvsengage.com/balancing-airdrie-student-spaces>

Some students cannot do course selection for next year due to out of area marking on PowerSchool. Those students need a manual correction made in PowerSchool. Parents or students need to contact Jodi Strickland jstrickland@rockyview.ab.ca to have that corrected. Derek will add this to the Croxford Connection, as there is an un-expected amount of students affected.

Exam and re-assessments – Teachers should have reached out or will reach out soon to students/parents on if they need to come in during the re-assessment period.

Principal Advisory Committee – Opportunity for students to come and eat pizza at lunch to discuss school related things with the Admin Team once a month.

New sign for School Council - sign was \$180 out of a \$250 grant that we had.

We can use this at all school events, such as celebration of learnings etc.

Question about PowerSchool breech – All we know is what has been communicated.. We will have to stay tuned for more information from Division or Powerschool.

Meeting Adjourned – 7:05pm
